Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

- Species I, the embodiment represented by Figures 1 and 6;
- Species II, the embodiment represented by Figures 1 and 7;
- Species III, the embodiment represented by Figures 1 and 8;
- Species IV, the embodiment represented by Figures 1 and 9;
- Species V, the embodiment represented by Figures 1 and 10;
- Species VI, the embodiment represented by Figures 11 and 6;
- Species VII, the embodiment represented by Figures 11 and 7;
- Species VIII, the embodiment represented by Figures 11 and 8;
- Species IX, the embodiment represented by Figures 11 and 9;
- Species X, the embodiment represented by Figures 11 and 10;
- Species XI, the embodiment represented by Figures 12 and 6;
- Species XII, the embodiment represented by Figures 12 and 7;
- Species XIII, the embodiment represented by Figures 12 and 8;
- Species XIV, the embodiment represented by Figures 12 and 9;
- Species XV, the embodiment represented by Figures 12 and 10;
- Species XVI, the embodiment represented by Figures 14 and 6;
- Species XVII, the embodiment represented by Figures 14 and 7;
- Species XVIII, the embodiment represented by Figures 14 and 8;
- Species XIX, the embodiment represented by Figures 14 and 9;

Species XX, the embodiment represented by Figures 14 and 10;
Species XXI, the embodiment represented by Figures 16 and 6;
Species XXII, the embodiment represented by Figures 16 and 7;
Species XXIII, the embodiment represented by Figures 16 and 8;
Species XXIV, the embodiment represented by Figures 16 and 9;
Species XXV, the embodiment represented by Figures 16 and 10;
Species XXVI, the embodiment represented by Figures 17 and 6;
Species XXVII, the embodiment represented by Figures 17 and 7;
Species XXVIII, the embodiment represented by Figures 17 and 8;
Species XXIX, the embodiment represented by Figures 17 and 9;
Species XXX, the embodiment represented by Figures 17 and 10.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 appears to be generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims

are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

2. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
